The vendor has no right to give, bargain, sell, assign or sublet or otherwise dispose of the Contract or any part thereof, as well as to give or to let a third party take benefit or advantage of the present Contract or any part thereof.

5.7 Completeness Of Contract

The contract will be deemed as incomplete if any component of the hardware, software, quality of service etc., or any documentation / media relating thereto is not delivered, or is delivered but not installed and /or not operational or not acceptable to the indenter/buyer after acceptance testing /examination.

In such an event, the supply and installation of hardware, application software, other software will be termed as incomplete. The hardware & application software will be accepted after complete commission and satisfactory functioning of equipment for a minimum period of 10 days. The Warranty period will commence only on acceptance (based on acceptance test) of equipment by the indenter/buyer.

5.8 Protection Against Risk of Obsolescence

Service Support partner will make the spare parts for the systems available for a minimum period of three years from the time of acceptance of the system. Thereafter, Service Support partner will give at least twelve-month notice prior to discontinuation of support services, so that the Indenter/buyer may order its requirements of the spares, if he so desires. If any of the components are not available or difficult to procure, or the procurement is likely to be delayed for replacement, if required, the replacement shall be carried out with state of the art technology equipment of equivalent or higher capacity, at no additional charges to the Indenter/buyer or Tenderer.

During the validity period of the order, if any of the machines /chips /parts becomes unavailable in the market, the vendor will be bound to supply the next higher version /configuration /family of the machines /chips /parts at the same price at which the rate contract is fixed.

5.9 Suspension & Cancellation of Contract

The Contract of the bidder shall be suspended and the bidder may be blacklisted forthwith by the MSeGS without issuing notice on any of the following circumstances/reasons:

- i. On finding deviation in technical specification as given in tender document, in the supplied product, or
- ii. Violation of any condition of the tender/ contract or part of any condition of the tender contract of RC, or
- iii. Deviation found in quality and quantity of the product supplied, or
- iv. On finding software supplied with hardware as pirated, or

- v. If it is found that during the process of award of contract, fraudulence was made by the bidder or the vendor if found to resort to the fraudulent practice in getting supply order like offering incentive in terms of free product or money.

As stopping the supply of faulty/substandard product and taking appropriate action in this regard is of an urgent and emergent nature required to protect the interest of the Government, the Contract of the concerned will be first suspended without issuing any notice. However, before taking the final decision on the matter, all concerned will be given reasonable opportunities to explain their stand. After enquiry, if the bidder is found guilty, the Contract of the concerned bidder for the product in question will be cancelled and other appropriate legal action shall also be initiated against all concerned.

5.10 Amendment

No provision of Contract shall be changed or modified in any way (including this provision) either in whole or in part except by an instrument in writing made after the date of this Contract and signed on behalf of all the parties and which expressly states to amend the present Contract.

However, proposal for cancellation of Supply Order need be referred to MSeGS if Supply Orders is above Rs. 10 lakh in value and where it is established that the delay in supply is due to willful negligence on the part of the vendor.

In case the Vendor fails to deliver the quantity as stipulated in the delivery schedule, the indenter/buyer reserves the right to procure the same or similar materials from alternate sources at the risk, cost and responsibility of the Vendor.

5.26 Inspection at Indenter / Buyer Premises

The vendor shall provide the inspection certificate of OEM for the equipment

The dealer shall proceed to open the packing and to carry out the installation only after a written acknowledgement has been obtained from the indenter/buyer that the goods have been inspected and found to be in order.

5.27 Third Party Verification

Chief Executive Officer, Mizoram State e-Governance Society reserves the right to get the verification of the specification, configuration of the Enrolment kits through authorized officials or through a Third Party Audit agency. A pre delivery inspection of the enrolment kits will be carried out by MSeGS by adopting sampling methodology at the bidders premise before dispatch of items to the specified delivery location. After the delivery is made, MSeGS will carry out the Third Party Audit through authorised officials or through Third Party Audit agency.

5.28 Installation, Commissioning and Acceptance

The vendor shall be responsible for delivery and installation of the Hardware at site of the order and for making them fully operational within 4 weeks for all the district headquarters of placing orders. If not possible, it shall be communicated to the indenter/buyer in writing with a copy to the MSeGS. The period shall start from the date of issue of the purchase order.

The vendor shall be responsible for configuring the power management settings and the regional settings in all the items supplied as part of the contract as per the directives provided by the purchaser.

The dealer at the destination site, in the presence of indenter/buyer and/or its representative, shall conduct acceptance test. The tests will involve installation and commissioning and trouble free operation of the complete system for two consecutive days apart from physical verification and testing. There shall not be any additional charges payable by the indenter/buyer for carrying out this acceptance test.

5.29 Integration of Hardware, Software and Peripherals

The dealer shall integrate the hardware and peripherals supplied by him to make them fully operational. The dealer will be responsible for demonstrating various parts to integrate peripherals. However, in case of problems with machines and / or equipment, it

will be the dealer's responsibility to locate the exact nature of the problem/s and rectify the same except for the problems in the application software installed on the machine/s, if any.

The dealer shall note that all the equipment and peripherals shall be supplied with the relevant interface cables. Also, all the equipment shall be provided with ISI standard, 3 Pin Power Plugs (5-amps/15 amp, as required).
